# ScreenShare

Local conference solution

ScreenShare makes communication on board vehicles **easier** and more **productive** than ever. With GoMedia's ScreenShare **high quality** local video and audio conferencing, you can **collaborate** with colleagues, give presentations, perform product demonstrations, work on documents, talk to your friends and family located somewhere else in the vehicle, all **locally** using the onboard Wi-Fi network.

ScreenShare is a **white labelled** solution and can be branded to your own brand guidelines. It works as an add-on feature that can be added to your GoView portal.
